Question: Any suggestions or comments about the course

1

2 Could you also touch upon some super-optimization techniques in this course?

3 I think the pace of the course could have been much higher, giving more time to cover more advanced topics than what has been done.

4 It is perfectly fine

5 The pace could have been increased a little

Question: What did you dislike most about this course?

1

- I believe the data flow analysis formulation was a bit rushed and some more time could be spent on building the theoretical foundations.
- 3 None.
- 4 Nothing
- 5 Nothing specific

Question: What did you like the most about this course?

I

- I loved the way polyhedral optimizations were presented, and it got me excited about the kind of advanced optimizations compilers do these days.
- 3 Interactive Lecture & Encouragement of Independent Thinking
- 4 It opened up new areas
- 5 It's very interesting to learn what significant optimizations do modern compilers perform. Various passes performed by the compilers are interesting too.
